Who Can Be Certified?

Small Businesses

In order to be certified as a small business in the state of California, a business must:

- 1. Be independently owned and operated
- 2. Not be dominant in its field of operation
- 3. Have its principal office located in California
- 4. Have its owners, officers and partners domiciled in California, and
- 5. Together with affiliates be either:
 - a service, construction, or non-manufacturer with 100 or fewer employees, and have average annual gross receipts of ten million dollars or less over the previous three years, or
 - a manufacturer with 100 or fewer employees.

Disabled Veteran Businesses

In order to be certified as a Disabled Veteran Business Enterprise (DVBE) in the state of California, a business must:

- 1. Be at least 51% owned by one or more disabled veterans.
- 2. Have its daily business operations managed and controlled by one or more disabled veterans. (The disabled veteran(s) who manages and controls is not required to be the disabled veteran owner); and
- 3. Have its home office located in the United States. The home office cannot be a branch or subsidiary of a foreign corporation, foreign firm, or other foreign-based business.

A disabled veteran means a veteran of the U.S. military, naval, or air service, with a service-connected disability of at least 10% or more, and who is a California resident.

Non-Profits

California non-profit organizations cannot be certified, but they are eligible to participate in the Prompt Payment Program.

Recognized non-profits can purchase a prompt payment rubber stamp to facilitate prompt payment benefits on state contracts. If you're interested in prompt payment benefits for your non-profit organization, contact the OSBCR and request a **non-profit application**.

Why Get Certified?

Small Business Certification

Small business certification helps your business compete more effectively for state contracting dollars.

Certified small businesses qualify for a 5% bid preference on applicable state contracts, and they're eligible for higher interest penalties for late, undisputed invoice payments under the Prompt Payment Act.

DVBE Certification

The State of California acknowledges the service and sacrifice of its disabled veterans, in part, through the Disabled Veteran Business Enterprise (DVBE) Participation Program. With the DVBE program, state agencies have a goal to award at least 3% of their total annual contract dollars to certified DVBEs.

The State of California contracts out \$4 billion every year

Manufacturer "SIC" Codes

Standard Industrial Classification (SIC) Codes—2000 thru 3999

This SIC Code list is for "manufacturer" firms only. <u>Do not use this list if your firm is a service, non-manufacturer, or construction firm.</u>

To be certified as a "manufacturer," your firm must meet BOTH of the following:

- (1) Be primarily engaged in the chemical or mechanical transformation of raw materials or processed substances into new products.
- (2) Be classified between codes 2000 to 3999, inclusive, of the Standard Industrial Classification (SIC) Manual published by the U.S. Office of Management and Budget, 1987 edition.

Instructions: Use the full 4-digit SIC code when classifying your "manufacturer" small business or disabled veteran business enterprise (DVBE).

The Office of Small Business Certification and Resources (OSBCR) offers technology solutions that are changing the direction of state contracting.

Accessible Contracting Opportunities

OSBCR's premier technology product is the California State Contracts Register (CSCR). The CSCR facilitates state contracting by centralizing and disseminating advertisements for state construction and service contracting opportunities. Agencies choose whether to advertise commodity contract opportunities.

Each issue contains an average of 400 potential contracts, including local government and special districts listed within 20 contract categories. Each advertisement contains key contract information and the contact agency/person to obtain a full solicitation package.

Don't Delay Access Today!

Features of the CSCR include:

- State agencies' progress payments made to prime construction contractors
- State contracts exempt from advertising requirement (this alerts businesses that may perform a service that is currently provided by a sole source)
- Award Notices
- Solicitation Packages (submitted electronically by state agencies -- available for download by the business community)
- Subscriber Outreach Services (allows the creation of a custom bidding profile so that firms receive only applicable contracting opportunity announcements)

OSBCR, business development centers, community colleges, and participating local libraries offer public access to the Internet.

The OSBCR Mission

The OSBCR provides stimulus and business information services to further state contracting participation. The OSBCR's primary responsibility is communication and access to state contracting information. The OSBCR certifies eligible small businesses for the State's five percent bid preference and eligible disabled veteran business enterprises for the State's three percent participation goal program. The Office publishes the daily Internet California State Contracts Register (CSCR), which announces bid information on state contracts and participating local government and special district contracts. The Office provides assistance in implementing provisions of the Small Business Procurement and Contract Act, Prompt Payment Act, Target Area Contract Preference Act (TACPA), the Enterprise Zone Act (EZA), and the Local Agency Military Base Recovery Area (LAM BRA) Act. The OSBCR is a resource to state agencies and business firms in the implementation of the State's Disabled Veteran Business Enterprise Participation Program.
